INTRODUCTION

Agronomy Department was established in 1984 in the Barani Agriculture College, Rawalpindi. The department started M.Sc. (Hons.) degree program in 1997. The department offers research oriented M.Sc.(Hons.), degree Agriculture, in Agronomy. Students who fulfill the criteria are admitted in M. Sc.(Hons.) Agronomy degrees programs. Agronomy degree programs are designed to be flexible in order to meet the student’s requirements in different areas of Agronomy viz. Nutrient Management / Nutrient Use Efficiency, Crop Production Technology of Field Crops, Seed Production and Technology, Physical Properties of Soil, Breeding Field Crops, Principles of Plant Nutrition and Growth Regulators, Soil Fertility and Fertilizers, Methods of Soil And Plant Analysis, Organic Farming, Conservation Agronomy, Crop Growth Modeling, Allelopathy and Weed Management.

The students of Masters are encouraged to take part in national as well as international seminars, workshops and other training activities for more exposure to the recent trends in agronomy. The faculty always lead the students in research publications. The use of various new instruments and equipments is an essential part of any research.

The Department has highly qualified and experienced faculty mostly having post doctorate research experience from universities of International fame. The faculty has produced 45 publications during the reporting period in journals of national and international repute. The faculty members have specialization in the fields of Crop Modeling, Crop Physiology, Crop & Seed Production Technology, Plant Nutrition, Forage and Fodder Production, Organic Farming, Conservation Agronomy, Allelopathy/ Weed Management etc.

Components of Self Assessment Process:

This Self Assessment has been arranged on the foundation of the following eight criteria described in self Assessment Manual.

CRITERION 1
PROGRAM MISSION, OBJECTIVES AND OUTCOMES
The Department of Agronomy presents the M.Sc.(Hons.) students the association, ability and indulgent critical for professional achievement in a changing world. Agronomy is a diverse profession that encompasses all aspects of crop production and soil management. The goal of the Department is to increase yield production, quality and profit by utilizing crop possessions and crop physiology.

**Mission Statements of the Department of Agronomy:**

The Mission of the department is to equip and impart training to M.Sc.(Hons.) students for high-quality education and research resulting in increased scientific knowledge and skills for employment and productive citizenship. Presently the department is striving for multidimensional approach to impart standard education and research skills.

**STANDARDS**

**Standards 1.1:** Documented measurable objectives

**Objectives:**

The main objectives of the Agronomy department are to:

- Build up the Department on modern lines for education and research at M.Sc. (Hons.) level.
- Employ the superior analytical approaches to impart the realistic scientific skills in the field of Agronomy.
- Broaden the visualization of students by teaching them integrated agriculture.
- adherence to new teaching methods & planning for current and upcoming researchable problems

**Outcomes:**

- Department of Agronomy was strengthened by planning the point in time needed education and research for M.Sc. (Hons.) students.
- M.Sc. (Hons.) students were imparted practical knowledge using advanced diagnostic techniques.
- Amalgamation of knowledge was achieved through induction of multidimensional courses for master’s degree students in addition to contemplation on latest developments in applied research projects/thesis research.
- Eagerness of new teaching/researchable areas achieved by updating the curricula.

**Main elements of strategic plan to achieve mission and objectives**
To award M.Sc. (Hons.) degrees to these students a crash training system collecting information through consultation from world reviews, writing, symposia and workshops.

To update the curricula of major & major courses, regular planning was launched.

By equipping with up to date facilities & equipment’s the departmental labs.

Publication of research data in scientific journals of world repute, books and other literature.

Course and Teacher Evaluation

Comparative graph of courses evaluation:

The values were taken from the proformas filled by the students, and then the impact was calculated according to the formula given by QEC.
Comparative graph of teachers’ evaluation:

![Comparative graph of teachers’ evaluation]

1. **Dr. Zammurad Iqbal Ahmed**

   i. **Teacher Evaluation**

   Data were collected from 18 M. Sc. students. Among the teachers, Dr. Zammurad achieved an excellent impact value of 4.63, that was parallel to Prof. Dr. Muhammad Ashraf(4.63) and Dr. Muhammad Azeem(4.63), followed by Prof. Dr. F.H. Sahi and Dr. Irfan with very good impact (4.62), and good impact value of Dr. Ansar (4.56), followed by Dr. G. Qadir(4.08). The individual parameters showed that the 16% of the students strongly agreed, 63% agreed, 11% uncertain, 9% disagreed, and 1% strongly disagreed that the instructor was prepared for each class. The data of rest of the parameters inferred that major proportion of the students are agreed that the teacher is fair in examination, the instructor came with good preparation the instructor demonstrates knowledge of the subject, instructor had completed the whole course, the instructor provided additional material apart from the textbook, the instructor gave citations regarding current situations with reference to Pakistani context, the instructor communicates the subject matter, the instructor shows respect towards students and encourages class participation effectively, the instructor maintained an environment that was conducive to
learning, the instructor arrived on time, the instructor returned the graded scripts etc. in a reasonable amount of time, the instructor was available during the specified office hours after class for consultations, the Subject matter presented in the course had increased their knowledge of the subject, the syllabus clearly states course objectives requirements, procedures and grading criteria, the course integrates theoretical course concepts with real-world applications, and the assignments and exams covered the materials presented in the course, the course material is modern and updated.

**Comments / Suggestions**

- He conveyed the lectures in a conceptual way.
- More practicals must be arranged in labs.
- Presented the idea clearly.
- Good behavior of the teacher and was available any time.
- Completed course in time.
- He had full command of the subject.

<table>
<thead>
<tr>
<th>AGR-701</th>
<th>Advanced field crop production</th>
<th>4(3-2)</th>
<th>Dr. Zammurad Iqbal Ahmed</th>
</tr>
</thead>
</table>

Data were collected from 18 M. Sc. students. Comparative graph of course evaluation flaunted, that the course (AGR-701) taught by Dr. Zammurad Iqbal Ahmed had an impact value of 4.6. The individual parameter showed that 33% the students strongly agreed, 51% agreed, 11% uncertain, 2% disagreed and 3% strongly disagreed that the course objectives were clear. Data regarding other parameters showed that most of the students agreed about the effectiveness and objectivity of the course, the course workload was manageable, well organized, the course was well structured to achieve the learning outcomes, the learning and teaching methods encouraged participation, the overall environment in the class was conducive to learning, and classrooms were satisfactory, learning materials were relevant, recommended reading books etc. were relevant and appropriate, provision of learning resources in the library was adequate and the course stimulated their interest and thought on the subject area., the pace of the Course was appropriate, ideas and concepts were presented clearly, the method of assessment were reasonable, the material was well organized and presented, the instructor was responsive to student needs and problems, instructor was regular throughout the course and the material in the tutorials was useful.

**Comments / Suggestions**

- The course was thought provoking and informative.
- Course can be improved by adding more practicals and new techniques.
- Lab equipment/facilities are needed to be improved.
- Class room condition should be improved.
- Course was interesting and conceptual.
1. The course objectives were clear

2. The course workload was manageable

3. The course was well organized

4. Approximate level of your own attendance during the whole course

5. The instructor gives citations regarding current situations with reference to Pak context

6. I think I have made progress in this course
7. I think the course was well constructed to achieve the learning outcomes

8. The learning and teaching method encouraged participation

9. The overall environment in the class was conducive to learning

Dr. Fayyaz ul Hassan

i. Teacher Evaluation

Data were collected from 18 students. Comparative graph of teachers’ evaluation exhibited that Prof. Dr. F.H. Sahi had a very good impact value of 4.62. The evaluation criteria parameters showed that the 23% of the students strongly agreed, 45% agreed, 19% uncertain, 7% disagreed, and 6% strongly disagreed that the instructor was prepared for each class. The data of other parameters inferred that major proportion of the students are agreed that the teacher is fair in examination, the instructor came with good preparation, instructor demonstrates knowledge of the subject, instructor had completed the whole course, the Instructor provided additional material apart from the textbook, the Instructor gave citations regarding current situations with reference to Pakistani context, the Instructor communicates the subject matter, the Instructor shows respect towards students and encourages class participation effectively, the Instructor maintained an environment that was conducive to learning, the Instructor arrived on time, the Instructor returned the graded scripts etc. in a reasonable amount of time, the Instructor was available during the specified office hours after class for consultations, the Subject matter presented in the course has increased their knowledge of the subject.

Comments / Suggestions

- Knowledge environment and resources were not satisfactory.
- Concepts of the teacher were clear during each lecture.
- The teacher deliberates each lecture after thorough preparation.
- The teacher is punctual and the pace of lecture is parallel to the teaching schedule.
1. The instructor is prepared for each class

2. The instructor demonstrates knowledge of the subject

3. The instructor has completed the whole course

4. The instructor provides additional material apart from the textbook

5. The instructor gives citations regarding current situations with reference to Pakistani context

6. The instructor communicates the subject matter effectively

ii. Course Evaluation

<table>
<thead>
<tr>
<th>AGR-702</th>
<th>Advanced Agronomy</th>
<th>4(3-2)</th>
<th>Dr. Fayyaz ul Hassan</th>
</tr>
</thead>
</table>

Data were collected from 18 students. Comparative graph of course evaluation showed, that the course (AGR-702) taught by Dr. Fayyaz ul Hassan had an impact value of 4.6. The individual parameter showed that 17% the students strongly agreed, 55% agreed, 19% uncertain, 3% disagreed and 6% strongly disagreed that the course objectives were clear. Data regarding other parameters showed that major proportion of the students agreed about the effectiveness and objectivity of the course, the course objectives were clear, the course workload was manageable, well organized, agreed that the approximate level of student’s attendance during the whole course was higher; students participated actively in the course and have made progress in this course, the course was well structured to achieve the learning outcomes (there was a good balance of lectures, tutorials, practical etc.). Similarly, they agreed that the learning and teaching methods encouraged participation, the overall environment in the class was conducive to learning, and classrooms were satisfactory, learning materials (Lesson Plans, Course Notes etc.) were relevant and useful, recommended reading books etc. were relevant and appropriate. They described that the provision of learning resources in the library was adequate and the course stimulated their interest and thought on the subject area. According to most of the students, the pace of the Course was appropriate, ideas and concepts were presented clearly, the method of assessment were reasonable.

Comments / Suggestions

- The course was very comprehensive and presents the myth of agronomic principles.
- Course contents were not properly designed
- Course effectiveness can be enhanced practicals and field excursions.
- Class environment was not conducive for high profiled learning.
- Lack of ideal environment of the class which is needed to be improved.
- Course was puzzling and course objectives were not clear.
1. The course objectives were clear

2. The course workload was manageable

3. The course was well organized (e.g. timely access to material notification of changes, etc.)

4. Approximate level of your own attendance during the whole course

5. The instructor gives citations regarding current situations with reference to Pak context

6. I think I have made progress in this course
7. I think the course was well constructed to achieve the learning outcomes

8. The learning and teaching method encouraged participation

9. The overall environment in the class was conducive to learning

10. Classrooms were satisfactory

11. Learning materials (lesson plans, course notes etc.) were relevant and useful

12. Recommended reading books etc. were relevant and appropriate
13. The provision of learning resources in the library was adequate and appropriate.

14. The provision of learning resources on the web adequate and appropriate.

15. The course stimulated by interest and thought on the subject area.

16. The pace of the course was appropriate.

17. Ideas and concepts were presented clearly.

18. The methods of assessment were reasonable.
19. Feedback on assessment was timely

20. Feedback on assessment was helpful

21. I understood the lectures

22. The material was well organized and presented

23. The Instructor was responsive to student needs and problems

24. Had the Instructor been regular throughout the course?
25. The material in the tutorials was useful

26. I was happy with the amount of work needed for tutorials

27. The tutor dealt effectively with my problems

28. The materials in practical was useful

29. The demonstrators dealt effectively with my problems
Dr. Muhammad Azim Malik  
i. Teacher Evaluation

Data were collected from 18 M. Sc. students. Comparative graph of teachers’ evaluation exhibited that Dr. Muhammad Azim Malik had an excellent impact value of 4.63. The evaluation criteria parameters showed that the 24% of the students strongly agreed, 51% agreed, 19% uncertain, 5% disagreed, and 1% strongly disagreed that the instructor was prepared for each class. The data of other parameters inferred that major proportion of the students are agreed that the teacher was fair in examination, came with good preparation, the instructor demonstrates knowledge of the subject, instructor had completed the whole course, the Instructor provided additional material apart from the textbook, the Instructor gave citations regarding current situations with reference to Pakistani context, the Instructor communicates the subject matter, the Instructor shows respect towards students and encourages class participation effectively, the Instructor maintained an environment that was conducive to learning, the instructor arrived on time, the Instructor returned the graded scripts etc. in a reasonable amount of time, the Instructor was available during the specified office hours after class for consultations.

Comments/Suggestions

1. Kind and good teacher with amiable and parental attitude with the students.
2. Always teaches his practical experiences to make the understanding of the subject effective.
3. Course was accomplished in appropriate time and was very motivating
1. The instructor is prepared for each class

2. The instructor demonstrate knowledge of the subject
3. The instructor has completed the whole course

4. The instructor provides additional material apart from the textbook

5. The instructor gives citations regarding current situations with reference to Pakistani context

Data were collected from 18 M. Sc students. Comparative graph of course evaluation showed, that the course (AGR-703) taught by Dr. Muhammad Azim Malik had an impact value of 4.7. The individual parameter showed that 41% the students strongly agreed, 37% agreed, 11% uncertain, 7% disagreed and 4% strongly disagreed that the course objectives were clear. Data regarding other parameters showed that major proportion of the students agreed about the effectiveness and objectivity of the course, the course objectives were clear, the course workload was manageable, well organized, the approximate level of student’s attendance during the whole course was higher; students participated actively in the course and have made progress in this course. Most of the students agreed that the course was well structured to achieve the learning outcomes, the learning and teaching methods encouraged participation, the overall environment in the class was conductive to learning, and classrooms were satisfactory, learning materials (Lesson Plans, Course Notes etc.) were relevant and useful, recommended reading books etc. were relevant and appropriate, the provision of learning resources in the library was adequate and the course stimulated their interest and thought on the subject area. According to most of the students, the pace of the Course was appropriate, ideas and concepts were presented clearly, the method of assessment were reasonable.

### Comments / Suggestions

- Learning resources were disappointing.
- Suggested books were not available in the library.
- Course was interesting and knowledgeable.
- Course was helpful for future
1. The course objectives were clear

2. The course workload was manageable

3. The course was well organized (e.g. timely access to material notification of changes, etc.)

4. Approximate level of your own attendance during the whole course

5. The instructor gives citations regarding current situations with reference to Pak context

6. I think I have made progress in this course
7. I think the course was well constructed to achieve the learning outcomes

8. The learning and teaching method encouraged participation

9. The overall environment in the class was conducive to learning

10. Classrooms were satisfactory

11. Learning materials (lesson plans, course notes etc.) were relevant and useful

12. Recommended reading books etc. were relevant and appropriate

7. I think the course was well constructed to achieve the learning outcomes

8. The learning and teaching method encouraged participation

9. The overall environment in the class was conducive to learning

10. Classrooms were satisfactory

11. Learning materials (lesson plans, course notes etc.) were relevant and useful

12. Recommended reading books etc. were relevant and appropriate
13. The provision of learning resources in the library was adequate and appropriate

14. The provision of learning resources on the web adequate and appropriate

15. The course stimulated by interest and thought on the subject area

16. The pace of the course was appropriate

17. Ideas and concepts were presented clearly

18. The methods of assessment were reasonable
19. Feedback on assessment was timely

20. Feedback on assessment was helpful

21. I understood the lectures

22. The material was well organized and presented

23. The Instructor was responsive to student needs and problems

24. Had the Instructor been regular throughout the course?
25. The material in the tutorials was useful

26. I was happy with the amount of work needed for tutorials

27. The tutor dealt effectively with my problems

28. The materials in practical was useful

29. The demonstrators dealt effectively with my problems
Dr. Irfan Aziz

i. **Teacher Evaluation**

Data were collected from 18 students. Comparative graph of teachers’ evaluation exhibited that Dr. Irfan Aziz had an excellent impact value of 4.62. The evaluation criteria parameters showed that the 12% of the students strongly agreed, 62% agreed, 19% uncertain, 6% disagreed, and 1% strongly disagreed that the instructor was prepared for each class. The data of other parameters inferred that major proportion of the students are agreed that, the performance and expertness of the teacher, the instructor came with good preparation, instructor demonstrates knowledge of the subject, instructor had completed the whole course, the Instructor provided additional material apart from the textbook, the Instructor gave citations regarding current situations with reference to Pakistani context, the Instructor communicates the subject matter, the Instructor shows respect towards students and encourages class participation effectively, the Instructor maintained an environment that was conducive to learning, the Instructor arrived on time, the Instructor returned the graded scripts etc. in a reasonable amount of time, the Instructor was available during the specified office hours after class for consultations, the Subject matter presented in the course has increased their knowledge of the subject, the syllabus clearly states course objectives requirements, procedures and grading criteria, the course integrates theoretical course concepts with real-world applications, and the assignments and exams covered the materials presented in the course, the course material is modern and updated.

Prof. Dr. Muhammad Ashraf
i. Teacher Evaluation

Data were collected from 18 students. Comparative graph of teachers’ evaluation exhibited that Prof. Dr. Muhammad Ashraf had a very good impact value of 4.63. The evaluation criteria parameters showed that the 6% of the students strongly agreed, 66% agreed, 11% uncertain, 16% disagreed, and 1% strongly disagreed that the instructor was prepared for each class. The data of other parameters inferred that major proportion of the students are agreed that the instructor demonstrates knowledge of the subject, instructor had completed the whole course, the Instructor provided additional material apart from the textbook, the Instructor gave citations regarding current situations with reference to Pakistani context, the Instructor communicates the subject matter, the Instructor shows respect towards students and encourages class participation effectively, the Instructor maintained an environment that was conducive to learning, the Instructor arrived on time, the Instructor returned the graded scripts etc. in a reasonable amount of time, the Instructor was available during the specified office hours after class for consultations, the Subject matter presented in the course has increased their knowledge of the subject, the syllabus clearly states course objectives requirements, procedures and grading criteria, the course integrates theoretical course concepts with real-world applications, and the assignments and exams covered the materials presented in the course, the course material is modern and updated.

Comments/Suggestions:

4. Good way of lessons, a man of forethought.
5. The instructor was well planned and prepared.
6. Presented the idea plainly.
7. Distributed knowledge effectively.
8. Instructor is very punctual and diligent
1. The instructor is prepared for each class

2. The instructor demonstrates knowledge of the subject

3. The instructor has completed the whole course

4. The instructor provides additional material apart from the textbook

5. The instructor gives citations regarding current situations with reference to Pakistani context

6. The instructor communicates the subject matter effectively
7. The instructors shows respect towards students and encourages class participation

Proforma 3: Survey of Graduating Students

A total of 34 students were included in the survey. The data showed that 67% of the students were very satisfied (VS), 11% satisfied, 11% uncertain, 5% dissatisfied and 6% very dissatisfied for the work in the program is too heavy and induces a lot of pressure. Moreover, most of the students were very satisfied with program administration, development of analytical and problem solving skills, the program is effective in developing independent thinking, written communication skills and planning abilities, the contents of curriculum are advanced and meet program objectives, faculty was able to meet the program objectives and the environment was conducive for learning.
5. The program is effective in developing independent thinking.

6. The program is effective in developing written communication skills.

7. The program is effective in developing planning abilities.

8. The objectives of the program have been fully achieved.

5. The program is effective in developing independent thinking.

6. The program is effective in developing written communication skills.

7. The program is effective in developing planning abilities.

8. The objectives of the program have been fully achieved.
9. Whether the contents of curriculum are advanced and meet program objectives

10. Faculty was able to meet the program objectives

11. Environment was conducive for learning

12. Whether the infrastructure of the department was good.

13. Whether the program was comprised of Co-curricular and extra-curricular activities

14. Whether scholarships/grants were available to students in case of hardship
Proforma 4: Research Student Progress Review Form

A total of 16 students of M.Sc. (Hons.) were surveyed. Most of the students of the Masters are interested in laboratory work and eager to operate modern equipments. They pointed out the problems regarding to the availability of space, computers and internet which is very poor.

Skills and Capabilities Reflected in Performance as Agronomist

- Students will be able to work in the field of Agronomy with confidence.
- To develop abilities of effective writing, oral presentations and demonstration.
- To use modern techniques/ tools in research studies

Performa 5: Results of Faculty Survey

The data generated as a result of faculty survey, showed that 31% of faculty members were very satisfied, 23% satisfied, 23 uncertain, 15% dissatisfied and 8% very dissatisfied are satisfied with their job clarity about promotion process. However, most of the faculty themselves reported as very satisfied mentoring and administrative support, job security, support from the department, their progress through ranks. The least time availability to faculty to interact with their family is due to extra load on present teachers as some times of the faculty members proceed on training, workshops etc so the poor strength of remaining faculty in the campus has to bear out the load of course work and other assignments.

Proforma 7: Alumni Survey

The purpose of this survey was to obtain alumni input on the quality of education and research they received and the level of preparation they had at University. A total of 46 alumni were surveyed. The data showed that the alumni reported 47% excellent, 26% very good, 12% good, 9% fair and 6% poor knowledge of Math, Science, Humanities and professional discipline. Also most of the Alumni reported excellent concerning department trained them excellently about the interpersonal skills such as team work, training of oral communication, IT knowledge, report writing and management skills, department has excellent infrastructure and repute, working in difficult conditions and independent philosophy, learnt excellent administration of resource and time, learnt excellent power of judgment.

1. Math, Science, Humanities and professional discipline?

2. Problem formulation and solving skills
3. Collecting and analyzing appropriate data

4. Ability to link theory to practice.

5. Ability to design a system component or process

6. IT knowledge

1. Oral communication

2. Report writing
1. Ability to work in teams.

2. Ability to work in arduous /Challenging situation

3. Independent thinking

4. Appreciation of ethical Values

Resource and Time management skills
Proforma 8: Employer Survey

The rationale of this survey is to obtain employers input on the quality of education, the department is providing and to assess the quality of the academic program. The survey included University graduates employed in different organizations. A total of 9 employers provided the data. The generated data showed the report of the employers about the Math, Science, Humanities and professional discipline was as 40% excellent, 30% very good, 10% good, 10% fair and 10% poor. All the employers significantly favoured the excellent performance of the candidates as regards different aspects of the professional life like power of problem formulation and solving skills, and have great ability of oral communication and are reliable and morally sound. Employers showed a little apprehension about computer skills of the students.

1. Math, Science, Humanities and professional discipline?

2. Problem formulation and solving skills

3. Collecting and analyzing appropriate data

4. Ability to link theory to practice.
5. Ability to design a system component or process

6. Computer knowledge

1. Oral communication

2. Report writing

3. Presentation skills

1. Ability to work in teams.
2. Leadership

3. Independent thinking

6. Appreciation of ethical values

4. Motivation
Standard 1.3: Strength of the Department

The results are being communicated to the respective departmental head through the Dean for corrective measures where needed.

Strength of the department

The main strength of the department is the availability of highly qualified teachers and their full acquaintance with respective subjects. Majority of the faculty members are foreign qualified and are well versatile in their area of interest.
Weakness Identified in the Program:

Lack of infrastructure to transfer the recommendations and technology to the farmers. Partial access to latest literature and updated review. There is a lower frequency deputing the young faculty for foreign trainings.

Major Feature of Improvement Plans

Quality education in the department is met partially through audio visual aids and use of modern equipments along with provision of latest literature, journals, books, reviews and access to internet.

The augmentation of knowledge and skills of faculty members to keep them up in pace with the latest global advancements in the discipline through is being practiced through faculty exchange programs (FEP), short training and collaborative research project (CRP) within and outside Pakistan.

Program out comes:

Table 3: Quantitative Assessment of the Department

<td>M.Sc (Hons.) Degree awarded</td>
<td>97</td>
<td>A few of the students joined Ph.D. Degree program and rest of the students got jobs in public and private institutes/organizations.</td>
</tr>
</tbody>
</table>

The evaluation process indicated high efficiency of system and satisfactory impact of outcomes. Almost all the graduates students got jobs in various organizations viz provincial agricultural department, universities, research organizations, banks and private firms.

Skills and capabilities Reflected in performance as Agronomy:

Students build up potential to apply information of Agronomy and to work as professionals to build self-confidence and communicate successfully in writing and oral skills. Students are able to make obvious use of modern research tools, techniques and skills for
building their proficient career. To make them be aware of how to formulate and design the experiments and to work efficiently in a research groups.

</table>
Faculty Satisfaction Regarding the Administrative Services

- The department upholds a percentage 4:1 for the academic (technical) and administrative non-technical staff which fulfils the standard set by HEC.
- Administrative meeting (departmental, university, academic council and syndicates) are attended as and when required.
- Regular disposal of office works is practised without reminder from higher authorities.
- Proper records of the following is maintained:
  - Enrolment
  - Research Reports
  - Entry test
  - Assignments
  - Tour reports
  - Attendance report
  - Evaluation report

Major future improvement plans

- Establishment of Crop Seed Production, Research and Training Centre
- Execution of research projects funded by different donor agencies.
- Further Strengthening of Linkages with National/ International organizations. Participatory research activities.
- Establishment of demonstration plots on farmers fields.
• Arranging faculty trainings in advanced countries to equip them with latest developments and research skills.

SECTION: 2

Criterion 2: Curriculum Design and organization:

Curriculum design and update is initiated by the faculty members of the Department after the approval of Board of Studies which comprises of senior faculty members and subject specialist who is taken from other faculties or from other Universities or research Institutions. It is headed by the Chairman of the Department. The approved curriculum is then sent to Board of Faculty, headed by the Dean Faculty of Crop and Food Sciences. This Board consists of senior faculty members from all the Departments of the faculty and subject specialists. Finally the curriculum is presented before the Academic Council which is comprised of the Professors, Associate Professors, Faculty Representatives and nominated experts.

Definition of Credit Hour

A student must complete a definite number of credit hours. One credit hour is one theory lecture or two hours practical work per week. One credit hour carries 20 marks. The semester is of 18 weeks.

Degree Plan

M. Sc (Hons.) in Agronomy

The M.Sc (Hons.) degree program consists of 2 academic years / 4 semesters. As a whole a student has to study 35 credit hours with 10 credit hours (research work and thesis writing) consisting of total 45 credit hours. Degrees are awarded after completing course work, one year research work, thesis writing and comprehensive examination are mandatory for the M.Sc (Hons.) degree. For Each course 10% marks are reserved for the assignments, 30% marks are for mid-term examination while 60% marks for final examination as per university rules.
Pre-requisites

Academic Requirements:

The process of admission well established and followed as per rules and criteria set by HEC. For this purpose an advertisement is given in the National Newspapers by the Registrar office.

Table 6: Admission requirements for different academic Programme

<table>
<thead>
<tr>
<th>Degree</th>
<th>Pre-requisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>M.Sc. (Hons.)</td>
<td>B.Sc. (Hons.) Agriculture in Agronomy with minimum CGPA 2.50 and entry test is compulsory for admission in the degree</td>
</tr>
</tbody>
</table>

Degree Requirements:

Degrees are awarded after completing the required number of credit hours (courses). Minimum Grade Point Average for obtaining the degree is 2.50. To remain on the roll of the university, a student shall be required to maintain the following minimum GPA/CGPA in each semester.

Table 7: Degree Requirements

<table>
<thead>
<tr>
<th>Degree</th>
<th>Pre-requisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>M.Sc. (Hons.)</td>
<td>Academic minimum score of 2.5 CGPA, 45 credit hours comprising 35 credits of course work and 10 credits of research thesis, comprehensive examination and thesis writing.</td>
</tr>
</tbody>
</table>

Examination Weightage

In course work, student's evaluation is done by mid-term examination, assignments/presentations/quizzes and final examination. A student, who misses the mid-term examination, is not allowed a make-up examination and is awarded zero marks in that examination. In case a student does not appear in the final examination of a course, he shall be
deemed to have failed in that course. In theory, weightage to each component of examination is as prescribed here under:

<table>
<thead>
<tr>
<th>Component</th>
<th>Weightage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mid Examination</td>
<td>30%</td>
</tr>
<tr>
<td>Assignments</td>
<td>10%</td>
</tr>
<tr>
<td>Final Examination</td>
<td>60%</td>
</tr>
</tbody>
</table>

For practical examination (if applicable) 100% Weightage is given to practical as scored in the final examination. A student is eligible to sit for the examination provided that he/she has attended not less than 75% of the classes in theory and practical, separately. The minimum pass marks for each course are 40 % for B.Sc.

Standard 2.1:

Assessment of the Curriculum of Agronomy Department

The Curriculum fits very well and satisfies the interior requirements for the program, as specified by the respective accreditation body. The Curriculum satisfied the general arts and professional and other discipline required for the program according to demands and requirements set by the Higher Education Commission (HEC).

Standard 2.2:

Elements vs courses:
Table 9: Elements vs courses

<table>
<thead>
<tr>
<th>Elements</th>
<th>Agronomy Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Problem analysis/Solution Design</td>
<td>AGRO-707 (Field Crop Experimentation)</td>
</tr>

<th>Credit hours/semester</th>
<th>Total credit hours</th>
<th>Course Work</th>
<th>Research and thesis</th>
</tr>
</thead>
<tbody>
<tr>
<td>M. Sc. (Hons.) Agriculture</td>
<td>Minimum 12 Maximum 32</td>
<td>45</td>
<td>35</td>
<td>10</td>
</tr>
</tbody>
</table>

Standard 2.4:
Credit hours and HEC requirement

The courses offered by the department meet the minimum criteria as laid down by Higher Education Commission.

Standard 2.5:
Attendance requirement

Attendance required in each course is 75%, below which the student is not allowed to sit in the examination.

Standard 2.6:
Need for IT courses:

Information technology component of the curriculum must be integrated throughout the program. There is deficiency of information technology related courses but some activities and courses in program are useful to give basic training of IT especially of computer programs.
Standard 2.7:

Enhancement of communication skills

Two seminars included in the course work and presentation of special problem of 1 credit hour in addition to the M.Sc.(Hons.) research activities enhances oral and written communication skills of the students.

CRITERION 3
LABORATORIES AND COMPUTER FACILITIES

Laboratory Facilities:

Laboratory titles:
1. Allelopathic Research lab
2. General research lab
3. Stress physiology lab
4. Nutrient efficacy lab

Location and Area:
Faculty of crop and food sciences, Ground floor, Agronomy Department

Objectives:
- Laboratories are used for:
- Practical exercise and demonstrations to students in their major courses
- Research work for the master's students
- Used for implementing the funded projects by the University, HEC, PSF, PARC and other agencies.
- Laboratories are well spacious and adequate and efforts are being made to update these more advanced and sophisticated research in future.

</table>

**Shortcoming in Laboratory facilities:**

- For faculty member and Master,s students equipments for growth analysis/physiological parameters are lacking viz. IRGA, chlorophyll meter, moisture monitoring, Neutron probe, tensiometers, water potential measurement devices. etc.
- The department lacks lecture rooms so the research labs are being used for classes.
- A green/glass house is direly needed for controlled experiments.

**Safety arrangements:**

- There is no proper safety arrangement and no security plans are in the case of emergency.
- There is no emergency exit for the lab and classroom.
- No fire extinguishers have been installed in any laboratory.
- No first aid kits/ facilities provided in the laboratory/department.

**Standard 3.1:**

**Laboratory Manuals**

Laboratory manuals of each subject are not available. The department has no library at all. However, individual teachers have their books.
Standard 3.2:  
Laboratory Personals for Maintenance of Laboratory  
Laboratories are maintained by Lab Assistant (01), and Laboratory Attendants(02).

Standard 3.3: Computing Infrastructure and Facilities  
Computer facilities are not available to all faculty members and the master,ss students.

SECTION 4  
CRITERION 4  
STUDENT SUPPORT AND ADVISING  
University organizes support programs and provides information regarding admission, scholarship schemes, etc. Department in its own capacity arranges orientation and guides various cultural activities and solve the student’s problems, however currently there is no parent teacher association.

Standard 4.1:  
Frequency of courses  
- Courses are taught as per policy of HEC.  
- At master,s level course subjects are offered as per scheme of study provided by HEC and approved.  
- Courses are offered according to scheme of study.  
- Elective courses are offered as per strategy of HEC and the university.  
- For M. Sc. (Hons.), a variety of courses are offered according to demand of the profession.

Standard 4.2:  
Structure of the courses  
- To ensure effective interaction between students and faculty during course formulation both theoretical and practical aspects are focused.  
- Theoretical problems are explained and assignment is also given to the students whereas practical are carried out both in the laboratory as well as in the field  
- Courses are structured and decided in the board of study meetings.
• Emphasis is always given for an effective interaction between each section.

**Standard 4.3:**

**Guidance to the Students**

- Several steps have been taken to provide guidance to the students such as:
- Students are informed about the program requirement through the office of the head of the department.
- Through the personal communication of the teachers with the students.
- Students can also consult their relevant teachers whenever they face any professional problems.
- In case of some problems, Director, Student Affairs is available who is ready to help the students.
- Student can interact with the teachers in university, whenever they need.
- Realizing the need for exploring job opportunities for the university graduates, Directorate of placement bureau has been established at PMAS-AAUR.

**CRITERION 5**

**PROCESS CONTROL**

It includes student admission, registration, faculty recruitment activities which are dealt by various statutory bodies and the university administration.

**Standard 5.1:**

**Program admission criteria**

The process of admission is well established and followed as per rules and criteria set by HEC. For this purpose an advertisement is given in the National Newspapers by the Registrar office.

**Table 11: Admission requirements**

<table>
<thead>
<tr>
<th>Degree</th>
<th>Pre-requisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>M.Sc. (Hons.)</td>
<td>B.Sc. (Hons.) Agriculture in Agronomy with minimum CGPA 2.50 and entry test is compulsory for admission in the degree</td>
</tr>
</tbody>
</table>
**Standard 5.2:**

**Process of registration**

- The student name, after completion of the admission process, are forwarded to the registrar office for proper registration in the specific program and registration numbers are issued to the students.

- Registration is done for one time for each degree but evaluation is done through the result of each semester, if the students fulfill criteria of the university, they are promoted to the next semester.

- In general, the students are registered on merit basis keeping in view the academic and research standards.

**Standards 5.3:**

**Recruiting Process for Faculty**

- Recruitment policy followed the university is recommended by HEC for induction of new faculty is done as per rules:

- Vacant and newly created positions are advertised in the National Newspapers, applications are received by the registrar office and call letters are issued to the short listed candidates on the basis of their experiences, qualifications, publications and other qualities/activities as fixed by the university.

- The candidates are interviewed by the university selection Board. Principal and alternate candidate are selected.

- Selection of candidates is approved by the syndicate for issuing orders to join within a specified period.

- Induction of new candidates depends upon the number of sanctioned posts.

- Standard set by HEC are followed.

- At present, no procedure exists for retaining highly qualified faculty members, however, the revised pay scales of structures is quite attractive.

- HEC also supports appointment of highly qualified members as foreign faculty professors, National Professors and place them in various departments of the university.
Standard 5.4:

Teaching and Delivery of Course Material

- To help providing high quality teaching, Department periodically revises the curriculum depending upon requirements, innovations and new technology
- With the emergence of new fields, new courses are set and included in the curriculum
- Lecture notes are also prepared by the teachers and given the students.
- Most of the lectures are also supplemented by overheads, slides, pictures.
- All-out efforts are made that the courses and knowledge imparted should meet the objectives and outcomes. The progress is regularly reviewed in the staff meetings.

Standard 5-5:

Completion of Program Requirements

The controller of examinations announces the date of commencement of examination. After ~20-30 days of the examinations, the controller office notifies the results of the students. The evaluation procedure consists of mid and final examinations, practical formulas, assignments and reports, oral and technical presentations. Candidates who secure 80% or more marks are awarded grade A. Gold medals are awarded to the students who secure highest marks. Degrees are awarded to the students on the annual convocation that is held every year.

Examination Weightage

Grading Policy

A grade = 80 % and above
B grade = 65-79 %
C grade = 50-64 %
D grade = 40-49 %
F grade = below 40 %
## CRITERION 6

### FACULTY

Standard 6.2:

Effective Programs for Faculty Development.

- Professional training and availability of adequate research and academic facilities are provided to the faculty members according to the available resources.
- Currently one faculty member is abroad for post-Doc as sponsored by the HEC.
- Incentives in the form of allowances to theses supervisors have been implemented lately to promote high standard research.
- Existing facilities include mainly internet access, which is available through networking system in addition to library facility with latest books also available.
- Effective programs for faculty development have been introduced.

Standard 6.3:

Faculty member motivation

- Time to time provision of enthusiasm to the young faculty by the senior faculty members.
CRITERION 7
INSTITUTIONAL FACILITIES

Standard 7.1:
Infrastructure

- The department must have the infrastructure to support new trends in learning and research.
- Department has established new laboratory for research related to crop physiology and working on developing new more laboratories.
- Equipments are not sufficient to meet the current requirement of research.

Lack of Institutional Facilities

- Insufficient facilities regarding the infrastructure to support new trends in learning or prevalent.
- Department library must be developed to provide support to graduate and post graduate students.
- Computer facilities should be provided to the staff and postgraduate students.
- Offices must be adequate to enable faculty to carry out their responsibility.

Standard 7.2:
Library Facilities

The university Central Library has very limited number of books, journals and periodicals. It’s a small library in term of space and facilities with no catalogue systems. It does not meet the standards of a university library. Department itself does not have a library.

Standard 7.3:
Class Room and Faculty Offices

No class room available. Research laboratories are being used for teaching purpose also, which affect the working of research students. Two to three teachers are sharing rooms.
Unavailability of most modern and related books and internet affects the quality of teaching. Common room for students is also missing.

**CRITERION 8**

**INSTITUTIONAL SUPPORT**

- Institutional support is highly appreciated.
- The upgradation of existing teaching cadre also provided and added advantage in detaining the present faculty.
- Sufficient secretarial support, technical staff and office equipment.

**Lack of Institutional support**

- Due to unavailability of class rooms, classes are taken in the laboratories.
- Financial support should be raised and allocate funds for postgraduate research students.

**Standard 8.1:**

**Support and financial resources**

The department has limited funds and Individual research grants for students and faculty are mainly supporting the departmental research activities. There is a dire need for increasing the financial resources allocated to the department to establish a library, laboratories and computer facilities.

**Standard 8.2:**

**High quality Research scholars**

The intake is once in a year. A strict merit policy applies and University test/GRE/NTS is preferred.

**Standard 8.3:**

**Financial resources**

Total budget of the department of agronomy for the financial years 2008-09 and 2009-10 was Rs. 24000 and 202000 respectively which does not fulfill the departmental needs particularly for the purchase of equipment, chemicals etc.
List of Enrolment for last few years

Around 18-20 students get admission in M.Sc. (Hons.) Agriculture in Agronomy every year.

SUMMARY

Agronomy is a diverse profession that encompasses all aspects of crop production and soil management. The Mission of Agronomy department is to equip and impart training to M.Sc. (Hons.) students for high-quality education for their esteemed and productive living. The department started its M.Sc. (Hons.) degree program in 1996. The Department has well structured academic programme of M.Sc. (Hons) Agriculture. The courses aim to develop and strengthen students capacity to grasp principles and practices Agronomy based on scientific principles. The strong academics enables them to specialize in one or more areas reflecting the student's particular interest. Specialization in Agronomy have input considerate of the current concepts of crop and edaphic practices. In addition they have sufficient specialist knowledge in selected areas to allow them to pursue a research degree in crop science. M.Sc. (Hons.) students acquire scientific background as well as having gained experience in problem solving and have developed the communication, numerical and computer skills required for a wide range of careers.

In order to evaluate whether department is fulfilling its objectives or not, surveys on various aspects such as course evaluation, teacher evaluation, alumni survey, research/graduating students surveys and faculty survey etc. have been conducted by the departmental members of the program team. The data were collected on prearranged proformas and later on analyzed and presented in the form of graphs and tables. The data revealed that students are satisfied with the subject approach of faculty members, their fairness in examination, and level of knowledge. However, the partial availability of lecture rooms and poor laboratories infrastructure were reported as major hurdles. Course evaluation survey showed that students are satisfied with workload and value of knowledge provided to them. According to research student survey, accessibility of internet and access to various scientific journals is limited. Similarly, the department has limited budget for research purposes which cannot maintain laboratories and research activities. According to employer survey, students are good at job but they have very basic knowledge of information technology and computer skills.
Faculty members are pleased with their salaries but they have severe concerns about the workload as most of them are agreed that they have very less time for themselves.

The faculty course review report tinted the need to divide the M.Sc. (Hons) Agriculture class into several section so that the teachers and students have conducive environment for teaching and learning. Some courses were rated as excellent but lengthy. Overall, the program of study was rated very good. The internship programme was reported as highly effective as majority of the internees were satisfied from the programme. However, the problems related to accommodation and research facilities and poor stipend were reported.

The Department has highly qualified and experienced faculty mostly having post doctorate research experience from universities of worldwide renown. The faculty has produced 45 publications during the last five years in journals of national and international repute. Moreover, five research projects were completed during the reported period; lack of infrastructure to transfer the recommended practices and technology to farmers. Access to latest literature and availability of updated review is not up to the mark. There is a need for short foreign trainings of young faculty members.

The performance of the department may be further improved considering:

- Split class rooms are required to facilitate the post-graduate students to continue laboratory works without breaks.
- There is a shortage of personal computers and unavailability of Internet which creates many impediments. Improvement in this area will also speed up the level of research and teaching,
- Departmental Laboratories need intensification through new equipments.
- There is also need to recover mix of research and teaching proportion to fabricate professionally sound graduates,
- At present there are no planning for professional training of the staff. Such trainings will improve their abilities for attractive the quality of research and teaching. It would be worthy to point out here that proper man at proper place is not being practiced.
- The budget allocated to the department hardly meets the requirements of the research,
At present there is no departmental library. Allocation of sufficient funds for this purpose will be helpful in subscribing reputed journals and purchase of books that will ultimately boost quality of learning, teaching and research.

**Experience** |  
As Professor | 23-06-07 to date  
Main Duties:  
- Teaching postgraduate and undergraduate courses.  
- Supervision of PhD and M.Sc student’s research.  
- Planning & Management of University Research Farm.  
- Planning & Execution of cropping pattern/ scheme at Research Farm.  
- Writing, planning and execution of research projects.  
- Financial and operational management of research projects & Farm.  
As Associate Professor | 29-05-04 to date 22-06-2007  
Main Duties:  
- Teaching postgraduate and undergraduate courses.  
- Supervision of PhD and M.Sc student’s research.
- Writing, planning and execution of research projects.
- Data recording, writing and compilation of annual reports of research projects.
- Financial and operational management of projects.
- Advisory service when and where needed.

**As Assistant Professor: From 22-1-1998 to 29-05-04**

**Main Duties:**
- Teaching postgraduate and undergraduate courses.
- Supervision of student’s research.
- Planning, execution, data collection of research projects.
- Management and maintenance of department laboratories.
- Coordination amongst departments for timetable/date sheet etc.
- Checking/review of student’s thesis at University level.

**As Assistant Agronomist (Water Management): From 15-1-1992 to 22-1-1998.**

**Main Duties:**
- Supervision and guidance of field staff related to agronomic development activities.
- Preparation of PC-1 of development schemes related to soil and water conservation.
- Training of field staff and farmers for farm designing, layout and management.
- Community mobilization and organization for water management activities.
- Demonstration and layout of sprinkler and drip irrigation systems.
- Preparation and presentation of monthly and annual reports.
- Farm advisory service when and where needed.

**As Agricultural Officer (Water Management): From 16-11-1989 to 15-1-1992.**

**Main Duties:**
- Supervision and guidance of field staff related to field activities.
- Preparation of monthly, semi annul and annual reports.
- Training of field staff and farmers for farm designing, layout and management.
- Farmers mobilization and organization to benefit from development projects.
- Office supervision and management.

**Assistant Research Officer: From 1-1-1989 to 15-11-1989.**

**Main Duties:**
- Planning, layout and execution of research experiments.
- Data recording/collection, analysis and writing results/reports.
- Farm management including resource mobilization and utilization.
- Farm inventory preparation/compilation.

**MANAGEMENT EXPERIENCE**

Assistant Warden, From July, 1993 to September, 1995  
Cwrt Mawr student’s Hall of Residence,  
University of Wales Aberystwyth (UK).

Duties Performed:

- Resolution of student’s day to day problems.
- Maintenance of law and order in the Hall of residence.
- Intercultural and interfaith harmony amongst students.
- Financial and operational management of the Hall.

Experience

I have a variety of experience in teaching, research and extension services. I have served in BS-17 in Government of the Punjab from June 15, 1986 to December 28, 1986. I have been serving as Lecturer since 1986 in Barani Agricultural College, Rawalpindi.

Currently I am working in University of Arid Agriculture, Rawalpindi as Associate Professor. Here my main duties are teaching and research both at undergraduate and graduate levels. I have published a number of research articles in journals of repute.

I am member of Academic Council and Faculty Board of Studies. I have also the charge of Head of the Department of Library for the last ten years. I had been Hall Warden for about two years and member of Central Purchase Committee of the University. I am also member of National Curriculum Revision Committee of Higher Education Commission.

I am serving as an external reviewer of the research projects for Pakistan Council for Science and Technology and Pakistan Agricultural Research Council and Foreign/External Examiner for Ph. D. thesis, Annamalai University, Tamil Nadu,
India. I am also at the panel of various Universities as external examiner for thesis evaluation. Many research journals have my name on their panel as referee pertaining to research articles.

MASTER DEGREE IN GEO-INFORMATION SCIENCES AND EARTH OBSERVATION, THE NETHERLANDS.

I did my Professional Master ( Specialization Sustainable Agriculture) in Geo-Information Sciences and Earth Observations from International Institute for Aerospace Survey And earth Sciences, Enschede, The Netherlands, during 1999-2000.

Professional Courses:

My Master degree courses included the following courses.

- Natural Resources Management.
- Remote sensing.
- Maps and Geographic Databases.
- Data Acquisition.
- Data Analysis and Modelling.
- Land use survey techniques, Land use impact analysis.
- Surveying and mapping land use, prepar land use data sets.
- Land use planning (LUP).
- Land cover/use map of Twente district (field work).

COMPUTER APPLICATION/SOFTWARE USED:

I have good knowledge and experience of following computer packages.

- ILIWIS 2.2 (GIS Database, Analysis, Visualization/Presentation).
- Windisp (Handling of NOAA Data/NDVI).
- Eeccrop. (Crops Ecological Requirements).

Selected Professional Presentations

INTERNATIONAL PRESENTATIONS.

I have given Presentations on
• OS Digital products, applications using OS DATA AND OS data on the Internet.
• Information about the Digital National Framework.
• Data collection in the field using PRISM, at Geography Department. University of Southampton, Southampton, United Kingdom.
• A course theoretical material on the assessment of Map accuracy and GPS, field Data collection techniques and analysis and result reporting. Department of Physical Geography, University of Lund, Sweden.
- Institute for Geo-information,
  Munster University, Germany.
- Con’terra, information technology mbh, 
  Munster, Germany.

155
Experience

1. Pakistan agricultural Research council, Islamabad

Position: science officer (BPS 17)
Duration: 07.9.1993 to 28.4.1998

Nature of work: conducted research trials in the rainfed area at the research center as well as at farmer’s fields. I remained involved in agronomic research of cereals crops to check the adaptability of different crops at the different environmental conditions regarding temperature and moisture requirements. I also remained involved to the transfer of improved production technology of cereals crops through research and demonstration trails to the farming community in the rainfed area of the country. During this period I also worked to study the microorganism’s effects on the crops and got the experience to prepare the microorganisms colonies in the applied microbiology laboratory. I worked as a liaison officer to coordinate the research activities between the universities, Research organizations and farmers.

2. University of Arid Agriculture, Rawalpindi

Position: Lecturer in Agronomy (BPS 17)
Duration: 28.4.1998 to 14-10-2006

Position: Assistant professor (BPS 18)
Duration: 14-10-2006 to date

Nature of work: i) Teach general as well as major courses to graduate and post graduate students and supervise research activities.

Courses taught
- Crop production(winter and summer crops)
- Crop physiology
- Seed production technology
- Arid zone agriculture
- Crop ecology

ii) Conducted research trails with special reference to rainfed problems. I have conducted specialization studies on fatty acid composition, physiology of crops and drought tolerance in sunflower hybrids. I also have specialized in resource conservation technologies to mitigate the water crisis/drought causing economic loss to the agriculture in resource poor countries like Pakistan. I have basic knowledge in dry land agro management to combat the drought in economic profile. I have experience to work on different instruments used to measure soil profile helpful to look into the moisture regime to understand soil moisture behavior and its effect on crop growth and development. Experience in national resource management, Sustainable agriculture and community development.

| Honor and Awards                      | Won the indigenous PhD Scholarship sponsored by Ministry of Science & Technology under the supervision of HEC in the first batch in open competition in 2001. |
| Memberships                           | Memberships of professional societies. |
|                                        | - Pakistan Botanical Society            |
|                                        | - Pakistan Agricultural Scientist Forum  |
|                                        | - Pakistan Agronomy Society              |
|                                        | - Pakistan Weed Science Society          |
|                                        | - Society For The Advancement of The Science |
| Graduate Students | ● Two M.Sc (Hons) student completed his M.Sc. (Hons) Agriculture under my supervision and one Ph.D student is writing up his thesis. 
Member of supervisory committee of two PhD and five M.Sc students. 
● I was the member of 15 student’s supervisory committee who completed their M.Sc.

1. **Research projects:**
   I remained involved in the completion of the following projects and Final report.
   1. Seed production and productivity enhancement of sorghum and millet crops on farmer’s field. (Productivity enhancement project)
   2. Status of sorghum crop in the farming system of rainfed areas of northern Punjab
   3. Transfer of improved production technology of cereals crops though research trails to the farming community in the rainfed area.
   4. National uniform yield trails at different research stations throughout the country.

**Project submitted:**
I am co-PI in a project funded by the agriculture linkage program (PARC)
Title: phenotypic plasticity of safflower in response to environment and integrated nutrient management.
