Introduction

The Bachelor of Information Technology (BSIT) degree focuses on computers and Information Technology. These programs typically deal with web design, databases, programming skills and networking, using each in a range of different fields. The main difference between information technology and computer science is that students are expected to study management and information theory. Computer science focuses on the science of computers, while information technology concentrates on the business and communication aspects.

University Institute of Information Technology (UIIT) was established in 2001 to address this dire need. UIIT is producing CS/IT graduates who are well versed to provide IT based solutions to the problems for all the sectors in general and for Agriculture sector in particular.

UIIT started BS (IT) program in 2007 and enrolled 100 students in its first batch. It is a four year program of eight semesters, each semester running for sixteen weeks. The degree is awarded to students on the successful completion of a minimum 133 credit hours, including six credits for the project, with a CGPA of at least 2.5. The course of Bachelors in Information Technology is designed to train professionals in IT by imparting high quality education in the field of computing with an emphasis on information technology. It includes a sound knowledge of the fundamentals of computing and mathematics relevant to IT. The students are equipped with skills to apply the concepts, principles and best practices in information technology for analyzing and solving real world problems.
The self assessment is based on a number of criteria. To meet each criterion several standards must be satisfied. This section describes how the standards of the Criterion 1 are met.

**Standard 1-1: The program must have documented measurable objectives that support institution mission statements.**

**Mission Statement**

Our Mission is to provide a quality and value-laden education in Computer Science and Information Technology in order to produce scientifically, technologically, and professionally competent graduates who are adept to perform a significant role in the continuing transformation of the local and global society.

**Documented measurable objectives**

Strategic objectives of BS (IT) program are:

1. To provide our graduates with a broad-based education that will form the basis for personal growth and lifelong learning.
2. To provide our graduates with a quality technical education that will equip them for productive careers in the field of Information Technology.
3. To provide graduates with the competencies and knowledge to take an appropriate professional role in Information Technology after graduation.
4. To make students learn how to design and analyze software systems, or to program in Visual C#, C++, Java, Oracle Database, or to create a homepage, or to write a JavaScript, PHP and AJAX based web application.
5. To provide our graduates with the communication skills and social and ethical awareness requisite for the effective and responsible practice of their professions.
6. To enable students to anticipate the changing direction of information technology, evaluate and communicate the likely utility of new technologies to an individual or organization.
7. To create well-rounded individuals who are productive and responsible member of society.

8. To allow students to acquire the skills and maturity to grow into pursuing research or graduate studies in the field.

9. To maintain a qualified and dedicated faculty who actively pursues excellence in teaching.

The assessment of program objectives through different criteria is presented in Table 1

Program Outcomes

1. Demonstrate ability to understand and contribute to the scientific, mathematical, and theoretical foundations on which computer science and information technologies are built.
2. Explain and apply appropriate information technologies and employ appropriate methodologies to help an individual or organization achieve its goals and objectives.
3. Use and apply current and emerging technical concepts and practices in information technologies.
4. Demonstrate independent, critical thinking and problem-solving competencies by being able to analyze, identify and define the requirements that must be satisfied to address problems or opportunities faced by organizations or individuals.
5. Anticipate the importance of research by being aware of basic research artifacts such as the structure of a research paper, brainstorming.
6. Demonstrate practical hands-on expertise in selection, installation, customizing and maintenance of the state-of-the-art computing infrastructure.
7. Demonstrate understanding of the social and ethical concerns of the practice of Information Technology.
8. Demonstrate the ability to work cooperatively in teams.
9. Demonstrate effective communication skills.

Standard 1-2: The program must have documented outcomes for graduating students. It must be documented that the outcomes support the program objectives and that graduating students are capable of performing these outcomes.

Table 2 shows that the outcomes of the program are aligned with each objective

Program Assessment Results

This section contains Teacher Assessment and Student Course Evaluation in summarizing form as well as in detail form.

Teacher Evaluation

The subsequent evaluation deal with student’s perspective of the teacher who taught courses of BSIT. The results are graphically presented in the figure below. The overall compiled results showed that Ms. Aisha Umair has scored 75%, Muhammad Nazir has scored 79%, Mr. Syed Mushhad Gillani has scored 81%, Ms. Bushra Hamid has scored 74%, Mr. Yasir Hafeez has scored 80%, Mr. Muhammad Ramzan has scored 83%, Mr. Nasir Mehmood Minhas has scored 81%, Ms. Fakhra Mushtaq has scored 73%, Mr. Shahzad Saqib Malik has scored 82%, Dr. Nawazish Naveed has scored 84%, Ms. Rubina Ghazal has scored 75%, Mr. Sheeraz Akram has scored 76%, Mr. M Shabbir Hassan has scored 75% and Dr. Muhammad Shaheen has scored 80%. The grading of other teachers can be seen from the graph, their comparison is shown in the figure below:
A detail of individual performance of each teacher is obvious from the pie charts given below:

**Ms. Aisha Umair (CS-582)**

The graph for “The instructor is prepared for each class”, shows that 26% are strongly agreed, 32% are agreed, 26% are uncertain, 5% disagreed and 11% strongly disagreed. The graph for “The Instructor provides additional material apart from text”, shows that 42% are strongly agreed, 16% are agreed, 32% are uncertain, 5% disagreed and 5% strongly disagreed. The graph for “The Instructor maintains an environment that is conducive to learning.”, shows that 38% are strongly agreed, 24% are agreed, 28% are uncertain, 5% disagreed and 5% strongly disagreed. The graph for “The subject matter presented in the course has increased your knowledge of the subject” shows that 28% are strongly agreed, 28% are agreed, 33% are uncertain, 5% disagreed and 6% strongly disagreed.
General Comments of the Students about the Teacher

Strength:
- Course material available
- Course objectives clear
- Good knowledge of the subject

Weakness:
- Should add a real world example

Mr. Muhammad Nazir (CS-443)

The graph shows the detail of evaluation. The graph for “The instructor is prepared for each class”, shows that 46% are strongly agreed, 27% are agreed, 9% are uncertain, 9% disagreed and 9% strongly disagreed. The graph for ”The Instructor provides additional material apart from text”, shows that 40% are strongly agreed, 20% are agreed, 20% are uncertain, 10% disagreed and 10% strongly disagreed. The graph for “The Instructor maintains an environment that is
conducive to learning”, shows that 54% are strongly agreed, 8% are agreed, 15% are uncertain, 15% disagreed and 8% strongly disagreed. The graph for “The subject matter presented in the course has increased your knowledge of the subject” shows that 57% are strongly agreed, 15% are agreed, 7% are uncertain, 14% disagreed and 7% strongly disagreed.

General Comments of the Students about the Teacher

Strength:
- Punctual and fair in examination
- Well prepared and Good communication skills

Weaknesses:
- Course material should be more updated
- The teacher should be available to students for extra help.

Mr. Syed Mushhad Gillani (CS-443)

The graph for “The instructor is prepared for each class”, shows that 57% are strongly agreed, 25% are agreed, 6% are uncertain, 6% disagreed and 6% strongly disagreed. The Instructor provides additional material apart from text”, shows that 57% are strongly agreed, 25% are agreed, 6% are uncertain, 6% disagreed and 6% strongly disagreed. The graph for “The Instructor maintains an environment that is conducive to learning”, shows that 60% are strongly agreed, 20% are agreed, 6% are uncertain, 7% disagreed and 7% strongly disagreed. The graph
for “The subject matter presented in the course has increased your knowledge of the subject” shows that 47% are strongly agreed, 23% are agreed, 12% are uncertain, 12% disagreeing and 6% strongly disagreed.

General Comments of the Students about the Teacher

Strength:
- Well prepared
- Punctual
- Fair in examinations

Weakness:
- The syllabus needs improvements

Ms. Bushra Hamid (CS-465)

The graph for “The instructor is prepared for each class”, shows that 50% are strongly agreed, 22% are agreed, 14% are uncertain, 7% disagreed and 7% strongly disagreed. The graph for “The Instructor provides additional material apart from text”, shows that 42% are strongly agreed, 8% are agreed, 8% are uncertain, 17% disagreed and 25% strongly disagreed. The graph for “The Instructor maintains an environment that is conducive to learning”, shows that 31% are strongly agreed, 23% are agreed, 16% are uncertain, 15% disagreed and 15% strongly disagreed.
The graph for “The subject matter presented in the course has increased your knowledge of the subject” shows that 50% are strongly agreed, 12% are agreed, 19% are uncertain, 6% disagreed and 13% strongly disagreed.
The Instructor shows respect towards students and encourages class participation.

The Instructor maintains an environment that is conducive to learning.

The Instructor arrives on time

The Instructor leaves on time

The Instructor is fair in examination

The Instructor returns the graded scripts, etc in a reasonable amount of time.

The Instructor was available during the specified office hours and for after class consultations.

The subject matter presented in the course has increased your knowledge of the subject.
General Comments of the Students about the Teacher

Strength:
- Comprehensive course material
- Well presented
- Good Teaching method

Weakness:
- The instructor should be more responsive to students

Mr. Yasir Hafeez (CS-565)

The graph for “The instructor is prepared for each class”, shows that 59% are strongly agreed, 8% are agreed, 8% are uncertain, 17% disagreed and 8% strongly disagreed. “The Instructor provides additional material apart from text”, shows that 65% are strongly agreed, 7% are agreed, 14% are uncertain, 7% disagreed and 7% strongly disagreed. The graph for “The Instructor maintains an environment that is conducive to learning”, shows that 61% are strongly
agreed, 8% are agreed, 8% are uncertain, 15% disagreed and 8% strongly disagreed. The graph for “The subject matter presented in the course has increased your knowledge of the subject” shows that 54% are strongly agreed, 13% are agreed, 7% are uncertain, 13% disagreed and 13% strongly disagreed.
General Comments of the Students about the Teacher

**Strength:**
- Comprehensive course material
- Well Presented
- Good Teaching Method
- Take Quiz Weekly

**Weakness:**
- The instructor should be more responsive to students
- More Workload
- Updated should be provided

**Mr. Muhammad Ramzan (CS-552)**

The graph shows the detail of evaluation. The graph for “The instructor is prepared for each class”, shows that 75% are strongly agreed, 7% are agreed, 6% are uncertain, 6% disagreed and
6% strongly disagreed. The graph for “The instructor has completed the whole course”, shows that 67% are strongly agreed, 9% are agreed, 8% are uncertain, 8% disagreed and 8% strongly disagreed. The graph for “The instructor shows respect towards students”, shows that 76% are strongly agreed, 9% are agreed, 5% are uncertain, 5% disagreed and 5% strongly disagreed. The graph for “The instructor is fair in examination”, shows that 56% are strongly agreed, 11% are agreed, 11% are uncertain, 11% disagreed and 11% strongly disagreed. The graph for “The instructor arrives on time”, shows that 79% are strongly agreed, 6% are agreed, 5% are uncertain, 5% disagreed and 5% strongly disagreed. The graph for “The course material is modern and updated”, shows that 60% are strongly agreed, 10% are agreed, 10% are uncertain, 10% disagreed and 10% strongly disagreed. The graph for “The teacher returns graded scripts in a reasonable amount of time”, shows that 60% are strongly agreed, 10% are agreed, 10% are uncertain, 10% disagreed and 10% strongly disagreed.
General Comments of the Students about this Teacher

Strengths:
- The teacher encourages students’ participation.
- The teacher is prepared before delivering the lecture.
- The teacher is fair in marking.

Weaknesses:
- The teacher should include modern concepts in her lectures to increase student knowledge.
- Teacher should give time to the students after class for consultation.

Mr. Nasir Mehmood Minhas (CS-582)

The graph shows the detail of evaluation. The graph for “The instructor is prepared for each class”, shows that 50% are strongly agreed, 32% are agreed, 6% are uncertain, 6% disagreeing and 6% strongly disagreeed. General Comments of the Students about this Teacher

Strengths:

- The teacher encourages students’ participation and gives respect to students.
- The teacher is punctual and fair in marking.

Weaknesses:

- The teacher should include modern concepts in her lectures to increase student knowledge.
- The teacher has not covered the syllabus completely.

Ms. Fakhra Mushtaq (MGT-316)

The graph shows the detail of evaluation. The graph for “The instructor is prepared for each class”, shows that 37% are strongly agreed, 18% are agreed, 9% are uncertain, 9% disagreed and 27% strongly disagreed. The graph for “The instructor has completed the whole course”, shows that 38% are strongly agreed, 23% are agreed, 8% are uncertain, 8% disagreed and 23% strongly

The Instructor communicates the subject matter effectively

The Instructor shows respect towards students and encourages class participation.

The Instructor maintains an environment that is conducive to learning.

The Instructor arrives on time

The Instructor leaves on time

The Instructor is fair in examination

The Instructor returns the graded scripts, etc. in a reasonable amount of time.
General Comments of the Students about this Teacher

**Strengths:**
- The teacher encourages students’ participation.
- The teacher is prepared before delivering the lecture.

**Weaknesses:**
- The teacher does not follow class timings.
- The teacher should include modern concepts in her lectures to increase student knowledge.
Assignments and exams should cover the material presented in the course.

**Mr. Shehzad Saqib Malik (CS-323)**

The graph shows the detail of evaluation. The graph for “The instructor is prepared for each class”, shows that 50% are strongly agreed, 29% are agreed, 7% are uncertain, 7% disagreed and 7% strongly disagreed. The course was well organized (e.g. timely access to materials, notification of changes, etc.)

Approximate level of your own attendance during the whole course.

I participated actively in the course

I think I have made progress in this course

I think the course was well constructed to achieve the learning outcomes (there was a good balance of lecture, tutorials, practical etc.)

The learning and teaching methods encouraged participation.

The overall environment in the class was conducive to learning.

Classrooms were satisfactory
General Comments of the Students about this Course

Weaknesses:

- Learning environment and resources were not satisfactory.
- Course objectives must be clearly defined.
- The course should include modern knowledge and techniques.
- More practical must be arranged in labs.

Survey of Alumni

The students after BSIT usually join organizations like software houses, telecom and multinational companies, schools, colleges, universities and few adopted higher education and then came to the research field. So Performa 7 was sent to the organizations and feedback was collected.

The 50% alumni are of the view that BSIT graduates have excellent knowledge, 26% are of the view that they have very good knowledge, 7% view that knowledge is good, 8% are of the view that their knowledge is fair and only 9% are of the view that their knowledge is poor. The graph regarding communication skills show that 47% are excellent, 27% are very good, 16% are good, 5% are fair and 5% are poor. According to interpersonal skills graph, 56% are excellent, 31% are very good, 7% are good, 3% are fair and 3% are poor. The graph of management/leadership skills shows that 53% are excellent, 22% are very good, 19% are good, 3% are fair and 3% are poor. The detail graphs of individual parameters are given below.
Figure 4: Knowledge
Figure 5: Communication Skills
Figure 6: Interpersonal Skills
Skills of Students as BSIT graduates

The students are equipped with latest technologies to work in a software house and in the telecom industry. The students also have knowledge to conduct research in the field of information technology. The students have adequate knowledge to teach in any academic institute.
Survey of Graduating Students

A survey is conducted for the students of last semester and feedback is collected on Performa 3. The results are summarized. A set of questions is present in the Performa 3. The graph from the summarized results shows that 36% students are very satisfied from the program, 29% are satisfied, 18% are uncertain, 10% are dissatisfied and 6% are very dissatisfied.

Figure 8: Survey of Graduating Students

Best Aspects of the Program:

- Qualified faculty
- Director helpful and deal the student’s problem on time
- Introduction to the new technologies

Weaknesses:

- Less number of faculty members
- More lab time should be provided which should be independent of the time table so that students can work according to their choice.
Standard 1-3: The results of the program’s assessment and the extent to which they are used to improve the program must be documented.

Strengths of Program/Institute
The course curriculum is well designed and updated. The institute has hired new faculty members to meet the needs of the students. The curriculum needs to be updated.

Weakness of Program/Institute
The weaknesses in the program are, there should be less independence on the visiting faculty. Although institute has hired new faculty but still it is less according to the requirements. There should be some sitting place in the campus in extreme summer weather.

Standard 1-4: The institute must assess its overall performance periodically using quantifiable measures.

As the BS IT program is not research oriented program, but at MS levels, students along with the faculty have published their research papers in the leading research Conferences and Journals. The detail is present in the faculty resume. In BS IT levels, such topics are covered which are related to the latest trends so that students can have knowledge of the research fields and final degree projects are preferred to be the implementation of some latest existing research work.

Community Service provided by the institutes:
Although right now there is no such mechanism to provide technical support to the local community but UIIT faculty was actively involved in establishing the lab in schools in remote areas under the Chief Minister Punjab program.
The institute has a plan to establish a wing which will provide support to different organization which is helping local community free of cost.

Employer Survey

A survey has been conducted and feedback has been collected on Performa 8 from the employees where students have BSIT degree from UIIT are working. The results are summarized in the figure given below.

![Employee Survey](image)

Figure 9: Employee Survey for Determining the Student's Skill Level

The graph shows the employees view regarding the students. The 85% students have enough knowledge regarding their field. The 79% have communication skills to communicate with the people of their own field. The 78% students have Interpersonal skills and 80% students have work skills related to the field. All the employees were of the view that the students have potential and they can be more productive.
Degree Title: BS (IT)

Purpose:
All the courses for degree program are developed by a committee constituted by the Higher Education Commission, Pakistan. The committee consists of experts and learned professors, subject matter specialists from other universities and research organizations from Pakistan. When and if needed, curriculum for the University Institute of Information Technology is revised/updated through different bodies. At the institutional level there is an institutional Board of Studies that is equivalent to faculty board of studies, which comprised of senior faculty members, is responsible for updating the curriculum. This body is authorized to formulate a syllabus and course content. The Director of the Institute is the convener of this body. The courses are then sent to the academic council for approval.

Definition of credit hour

A student must complete a definite number of credit hours. One credit hour is one theory lecture or two hours laboratory (practical/week). One credit hour carries 20 marks.

Degree plan

Presently two degree programs are organized by the department. BS (IT) and BS (CS): The BS (IT) degree program consists of 4 academic years/ 8 semesters.

Standard 2-1: The curriculum must be consistent and support the program’s documented objectives.

The table given below shows the list of courses those are consistent with the programs objectives.

Assessment of BSIT Curriculum

The assessment of the BS IT degree program is shown in tabulated form which indicated that contribution of each course for the program outcomes.

- It contains the introductory computing course, middle level course and advanced computing courses.
- It contains mathematical courses which help in designing the mathematical modeling and developing numerical solutions.
- It contains the management and business courses to give students a flavor of business infrastructures.
Standard 2-2: Theoretical backgrounds, problem analysis and solution design must be stressed within the program’s core material.

The Table below shows the categorization of courses which plays vital role in building theoretical background, problem analysis and designing a solution.

306(b)

308
Standard 2-4: The curriculum must satisfy the major requirements for the program as specified by HEC, the respective accreditation body / councils. Examples of such requirements are given in Table A.1, Appendix A.

The institute has its own faculty board comprising of ten members, one member from sister institute, two members from the academic council of PMAS-AAUR and seven members from faculty of UIIT. All courses of BSIT degree are designed according to the defined standard of HEC by the said faculty board and curriculum is duly approved by the academic council of the university.

Standard 2-5: The curriculum must satisfy general education, arts, and professional and other discipline requirements for the program, as specified by the respective accreditation body / council. Examples of such requirements are given in Table A.1, Appendix A.

The course distribution in the curriculum of BSIT is according requirements of Accreditation Council of Pakistan and HEC

Standard 2-6: Information technology component of the curriculum must be integrated throughout the program.

The degree of BS IT is a computer science professional degree. The extensive programming and application courses are included in the degree. It includes major computer science, software engineering and information technology courses.

**Standard-3.1: Laboratory manuals/documentation/instructions for experiments must be available and daily accessible to faculty and students.**

Laboratory manuals for the entire practical subject are prepared and distributed among students.

**Standard-3.2: There must be support personal for instruction and maintaining the laboratories.**

The detailed information of Laboratory is presented in Table 6. A total of 15 lab support staff is available at UIIT. The Lab support staff helps teachers in conducting different labs. Their main responsibilities include the lab maintenance, availability of related software for lab etc. One lab person is available for each of the lab being arranged. Detail is given below:

- Computer Lab support staff: 15
- Multimedia Projector Count: 18
- Over Head Projectors Count: 7
- Total Lab Computers: 285
- Total No. of Labs: 8

**Standard-3.3: The University computing infrastructure and facilities must be adequate to support program’s objectives.**

The UIIT provides enough computing facilities for students in the Lab. The total numbers of computers available for students use in multiple labs are 285 in 8 labs.

A student to computer ratio maintained in the year 2011-2012 is 1:2. The detailed information is presented in table 6.
CRITERION 4: STUDENT SUPPORT AND ADVISING

Our University organizes support programs for students and provide information regarding admission, scholarship schemes etc. Department in its own capacity arranges guided tours of the department. Director Students Affairs itself arranges various cultural activities and solves the students’ problems. However currently there is no Parent/Teacher association.

**Standard-4.1: Courses must be offered with sufficient frequency and number for students to complete the program in a timely manner.**

Courses are taught as per HEC criteria.

- At undergraduate level subjects/courses are offered as per the scheme of study provided by the HEC and approved by Academic Council. Postgraduate level courses are however offered according to the availability of the teacher and a number of students.
- Elective courses are offered as per policy of HEC and the University.
- For postgraduate programs, a variety of courses are offered according to demand of the profession.

**Standard-4.2: Courses in the major area of study must be structured to ensure effective interaction between students, faculty and teaching assistants.**

Both theoretical and practical aspects are focused to prepare the students for future challenges. Theoretical problems are explained and assignments are also given to the students whereas, practice is carried out in the labs. Study tours to various research organizations and software houses are also organized to keep them updated with the latest developments in the area and to stimulate them for discussion through teacher/student interaction.

- BS (IT) courses are well designed and updated in the institute board of studies meeting.
- At start of semester, the faculty members of institutes interact frequently among themselves and with students.
- Institute always encourages the interaction between each section of BS (IT) classes.
Standard-4.3: Guidance on how to complete the program must be available to all students and access to qualified advising must be available to make course decisions and career choices.

Several steps have been taken to provide guidance to students by different ways such as:

- Students are informed about the program requirement through the director's office.
- Through the personal communication of the teachers with the students.
- Meetings are organized by the director of the institute for counseling for the students. In addition, students can also contact with the relevant teachers whenever they face any problem.
- Students can meet director of the institute whenever they feel need to meet on any serious issue.
- Realizing the need for exploring job opportunities for the university graduates, Directorate of Placement Bureau has been established.

CRITERION 5 PROCESS CONTROL

It includes students’ admission, registration and faculty recruitment activities, which are dealt by various statutory bodies and the university administration.

Standard-5.1: The process by which students are admitted to the program must be based on quantitative and qualitative criteria and clearly documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

- The process of admission is well established and is followed as per the rules and criteria set by HEC. For this purpose an advertisement is published in the national newspapers by the Registrar's office.
- Admission criteria for BS IT are F.Sc. Pre medical or pre engineering with minimum of second division.
- Admission criteria are revised every year before the announcement of admission.

Standard-5.2: The process by which students are registered in the program and monitoring of students progress to ensure timely completion of the program must be documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

- The student name, after completion of the admission process, is forwarded to the Registrar's office for proper registration in the specific program and the registration number is issued to the student.
- Registration is done in one time for each degree but evaluation is done through the result of each semester. Only those students, who fulfill the criteria of the University, are promoted to the next semester.
Standard-5.3: The process of recruiting and retaining highly qualified faculty members must be in place and clearly documented. Also processes and procedures for faculty evaluation, promotion must be consistent with institution mission statement. These processes must be periodically evaluated to ensure that it is meeting with its objectives.

- The recruitment policy followed by the University is the same as recommended by the HEC. Induction of all posts is done as per rule.
- Vacancies and newly created positions are advertised in the national newspapers, applications are received by the Registrar's office, scrutinized by the scrutiny committee, and call letters are issued to the shortlisted candidates on the basis of experience, qualification, publications and other qualities/activities as determined by the University.
- The candidates are interviewed by the University Selection Board, and Principal and alternate candidates are selected.
- Selection of candidates is approved by the Syndicate for issuing orders to join within a specified period.
- Induction of new candidates depends upon the number of approved vacancies.
- Standard set by HEC are followed.
- At present, no procedure exists for retaining highly qualified faculty members. However, the revised pay scales structure is quite attractive.
- HEC also supports appointment of highly qualified members as foreign faculty Professors, National Professors and deputes them to the concerned departments of the University.

Standard 5-4: The process and procedures used to ensure that teaching and delivery of course material to the students emphasizes active learning and that course learning outcomes are met. The process must be periodically evaluated to ensure that it is meeting its objectives.

- To provide high quality teaching, department periodically revises the curriculum in views of field requirements, innovations and new technology.
- With the emergence of new fields, new courses are introduced and included in the curriculum.
• Students usually buy cheap Asian editions of technology books. These are also available in the University library, where documentation, copying and internet facilities are available.

• Notes are also prepared by the teachers and given to the students.

• Most of the lectures are supplemented by overheads, slides and pictures.

• All efforts are made that the courses and knowledge imparted meet the objectives and outcome. The progress is regularly reviewed in the staff meetings.
CRITERION 6: FACULTY

Standard 6-1: There must be enough full time faculties who are committed to the program to provide adequate coverage of the program areas/courses with continuity and stability. The interests and qualifications of all faculty members must be sufficient to teach all courses, plan, modify and update courses and curricula. All faculty members must have a level of competence that would normally be obtained through graduate work in the discipline. The majority of the faculty must hold a Ph.D. in the discipline.

Below is the detail of faculty members at UIIT for the program BS-IT.

The entire faculty members are hired on the basis of the degree offered by the institute. As there is no specialization offered in degree’s the student enrolled get similar degree. So there is no distribution of faculty in all programs with respect to specialization.

**Standard 6-2: All faculty members must remain current in the discipline and sufficient time must be provided for scholarly activities and professional development. Also, effective programs for faculty development must be in place. Effective Programs for Faculty Development**

- The faculty members are sent to the training for the available resourced. Currently many faculty members are studying in Pakistan and abroad in MS and PhD level studies.
- The institute provides them study leave with pay and some time allowance where possible for the institute.
- Internet is available to all the faculty members. The faculties also have access to the digital library and limited access to some well known journals.
- The institute provides support for attending conferences through HEC. There are certain policy matters which a faculty member needs to follow in order to get a positive feedback from the institute for travel grants to the conference.
- The university provides a certain amount of innovative research ideas to the faculty members.

**Standard 6-3: All faculty members should be motivated and have job satisfaction to excel in their profession.**

The faculty members are not fully satisfied with the workload and the amount they get in the form of salary. Most of the faculty members are satisfied with the mix of research and teaching method. The faculty members are satisfied with the support they are getting from the administration regarding the research and teaching. The faculty members are satisfied with overall climate of the institute. Not all the faculty members are satisfied with the job security. Most of the faculty members are satisfied that the institution is utilizing their capabilities in the good way. The faculty should be encouraged to continue excelling through the career. CRITERION 7: INSTITUTIONAL FACILITIES

According to this criterion, the institution must have the infrastructure to support new trends in learning such as e-learning including digital publications, journals etc.

- The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel. In the library there is insufficient technical collection of books. Recommended books and relevant journals of the programs are not available to the students.
- These aspects need to be strengthened in number and space.
- Classrooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibilities.
- The standard wise description of this criterion is given as under

**Standard- 7.1: The institution must have the infrastructure to support new trends in learning such as e-learning.**

The university faculty has access to e-library and internet which is very supportive for the faculty but faculty is facing certain problems such as:

- Repeatedly power failure during the labs
- Faculty doesn’t have access to many well known journals which are relevant to the field.

**Standard- 7.2: The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel.**

The University Central Library has very limited number of books, journals and periodicals. It’s a small library in term of space and facilities with no catalogue systems. It does not meet the standards of a University Library. The institute has its own small library which has computer science related group. But this library also lacks the book related to the latest field and the filed in which currently latest results are being conducted.
Standard- 7.3: Class-rooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibilities.

- Office environment is not comfortable to work at all during summer.
- Class rooms have limited size having optimal volume of white board.
- Because of fans, teacher keep on speaking and voice don’t reach ahead of 2nd or 3rd row in summer, so there is a need to replace fans with air conditions.
The university administration has been struggling hard to strengthen all the departments, and also upgrade them and establish new faculties and Institutes. The university is trying to attract highly qualified faculty.

**Standard 8-1:** There must be sufficient support and financial resources to attract and retain high quality faculty and provide the means for them to maintain competence as teachers and scholars.

The institute currently has limited resources for the research. There should be enough research budgets that can attract the faculty member to do research in their fields. Along with the research grant, the institute should provide funding for the research projects independently.

**Standard 8-2:** There must be an adequate number of high quality graduate students, research assistants and Ph.D. students.

Below is the list of students in BS-IT program over past ten years. UIIT is not accredited for a PhD degree. Teaching Assistant positions are not available for UIIT.

SUMMARY AND CONCLUSION

The Self Assessment Report of the University Institute of Information Technology (UIIT), Pir Mehr Ali Shah Arid Agriculture University, Rawalpindi for Degree Program Bachelor of Science, Information Technology (BSIT), gave a general introduction of the institution and a detailed discussion of the BSIT degree program. The discussion included significance of the degree program important features, objectives and outcomes and associated measures to assess the objectives.

The BSIT is a degree program spanning four years i.e. 8 semesters, having numerous courses, hence, all the faculty members are involved in teaching courses in the BSIT degree program. The program is designed according to the criteria specified by HEC, intend to meet the latest international market requirements in the field of Information Technology. For the improvement of communication skills the institution has also included quite a few general courses according to the instructions of HEC. The faculty members and students are compelled to arrange workshops and seminars as a part of their academic and practical work to prepare the students for the market. In order to ensure the quality of education, course and teaching evaluation, in line with the HEC guidelines, is conducted throughout the semester as a continuing activity. The assessment showed scores of 73 – 84% in teachers evaluation and 72 – 83% in courses

The performance of UIIT can be improved in general and especially for the BSIT Degree program by improving following points:

1. The structure of the degree should be bendable for the students or should be given an opportunity to the students for specialization in a specific area of their interest.
2. The areas offered to the student for specialization should be related to multimedia & design, network systems, software engineering, web technologies, communications, etc.
3. Teaching Assistance should be provided to the teachers as practiced by many other leading universities to reduce the load on the teacher.

4. The curriculum needs to be updated to bring it in line with the changing market trends in IT and to eliminate any possible overlapping of contents among different courses.

5. The work assigned to the faculty members other than course load should be distributed in a balanced way.

6. The level of job contentment must be improved by providing more research opportunities and increasing salary package according to the market.

7. There is a need to expand the campus building as the number of students of all degrees is increasing beyond its capacity.

8. The faculty offices should be in the area where the students’ in-out would be the least.
